Intro to Transportation Asset Management for Elected Officials
Sept. 29th, 2014 – 6:00pm to 8:30pm – Gaylord, MI

Location
Otsego County Road Commission
669 W. McCoy Rd.
Gaylord, MI 49735

Overview
We apply the basic principles of asset management every day to manage decisions relating to our homes, automobiles and other personal possessions. Businesses also use asset management to make decisions, so why don’t we use the same principles to maintain roads?

This workshop will provide an introduction to several core components of transportation asset management:
- Overview of transportation asset management principles
- Lowering costs using an asset management plan
- Preventative maintenance treatments for asphalt
- Choosing the right preventative maintenance strategies

Registration
There is no cost to participants. The Michigan Transportation Asset Management Council (TAMC) covers the training session registration costs and refreshments will be provided by the host city.

Registration starts at 5:30pm
Register at ctt.mtu.edu/Training or by calling (906) 487-2102
Questions? Email ctt@mtu.edu

Instructor
Tim Colling, Ph.D., P.E., has been with the Center for Technology & Training (CTT) since 2002. Dr. Colling is a registered Professional Engineer in both Michigan and Wisconsin. His expertise and focus is in asset management and asset management systems.

For fulfillment of Continuing Education requirements, participants must be registered. The Center for Technology & Training’s continuing education policy is available at ctt.mtu.edu/ContinuingEducation.
