

Meeting the TAMC Investment Reporting Requirements using Roadsoft - Webinar

Wednesday, November 6, 2019 - 10 to 11:30 A.M. ET

Learn How to

- Enter road & bridge project data
- Translate Roadsoft treatments to Investment Reporting Tool (IRT) project classifications
- Export TAMC project reporting files for the IRT
- Upload files to the IRT
- Complete the TAMC reporting requirements

No cost to register. Register online [here](#).

Questions? Email us at ctt@mtu.edu.

For more training opportunities click [here](#).

For fulfillment of Continuing Education requirements, participants must be registered. The Center for Technology & Training's continuing education policy is available [here](#).

Instructors

Scott Bershing is a technical specialist with the CTT. Bershing rejoined the CTT in 2017 after previously working for the Tribal Technical Assistance Program and the Local Technical Assistance Program. He has worked as a technical communicator since 1995. Bershing holds a Bachelor of Science in Scientific and Technical Communication from Michigan Technological University.

Mary Crane is a senior software engineer who has been with the Center for Technology & Training (CTT) since 2006. She has worked in computer programming since 1988. Her foci have been the Safety Module and the TAMC reporting processes. She also provides technical support, helps conduct Roadsoft trainings, and does technical support for the AASHTOWare BrR Bridge Load Rating software. Crane has a Bachelor of Science in Computer Science from Michigan Technological University.
