

Overcoming Obstacles to Effective Use

Roadsoft: Overcoming Obstacles to Effective Use

Nick Koszykowski

Senior Software Architect

MTU – Center for Technology & Training

Larry Brown, P.E.

Road Commissioner, Allegan County

Today's Topics

- Agency Requirements, Wants, & Needs
- Obstacles for achievement
- Solutions using Roadsoft effectively

Agency Requirements

- Collect 50% Fed Aid PASER
- Report Completed & Planned Projects
- Road/Bridge Asset Management Plans (PA 325)

Agency Needs & Wants

- Improve/Maintain Road Condition
- Better planning for future projects
- Best bang for buck

Obstacles: Real or Perceived

- Time
- Money
- Knowledge
- Inexact Tools
- Time
- Money

Solution: Roadsoft

- Inventory
 - Know what you have
- Assessment
 - Know its condition
- Analysis
 - Make informed decisions

Obstacle: No Time/Money

- Incomplete Data
- Invalid Data
- No Data

No Time/Money: Solutions

- Funding for local collection via Region
- Interns trained on PASER

Problem: Incomplete Data

- Missing ratings
- Missing Project Data

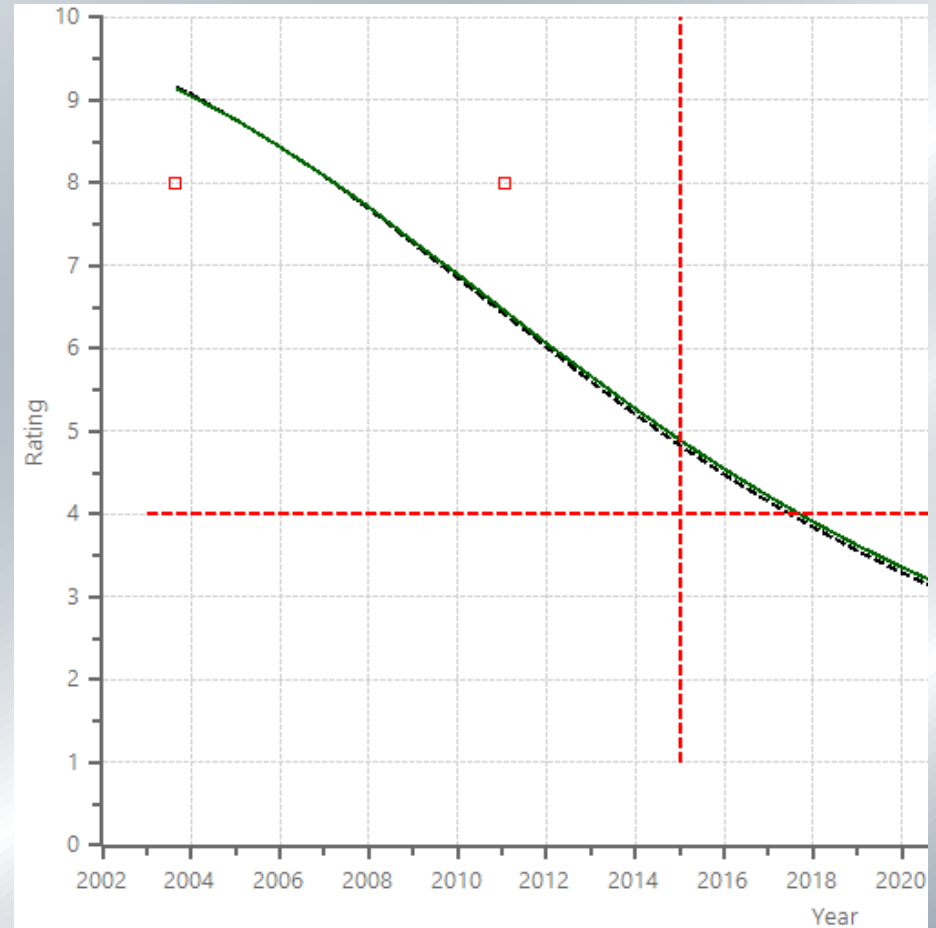

Problem: Incomplete Data

Surface	
Surface SubType	Asphalt-Standard (As... Edit)
MIRE Surface Type	Bituminous
Current PASER Rating	2 - Very Poor
RSL	-9
Confidence	99
YLR	
PASER Rating/Treatment History	
Add PASER Rating/Treatment...	
8/28/2003	
+ PASER Rating	8 - Very Good

Partial Solution: More Ratings

Surface

Solution: Project Data

- 5-10 Minutes per Project to add
- Step 1:
 - Select Road Segments on Map

Solution: Project Data

- 5-10 Minutes per Project to add
- Step 2:
 - Add Project Using Selection

Solution: Project Data

- 5-10 Minutes per Project to add
- Step 3:
 - Enter Project Info and Save

Add Project	
Project Information	
Location	Upper Massie Rd
Project Number/ID	2019-05a
Surface Subtype	Asphalt-Standard
<input type="checkbox"/> Treatment	Crush, Reshape and Overlay
Reset Rating	10 - Excellent
Life Expectancy	15
<input type="checkbox"/> Estimated Costs	\$311,483
Calculate Estimate	
Total Costs	\$311,483
Start Date	5/15/2019
Status	Completed
Completion/Open To Traffic Date	7/15/2019
Reactionary Project	No/Unknown
Warranty Project	No/Unknown
Description	
Source Of Funds	
Memo	
Status	
The current status of the project.	
View/Edit Documents	Save

Solution: Project Data

- 5-10 Minutes per Project to add
- 3 Major Benefits:
 1. More Complete Data = Better Calculations
 2. Data Ready for Submission to TAMC
 3. Data Ready for Asset Management Plan

Current Rating vs Last Rating

- 7/15/2019 PASER Rating 10 is Last Rating
- 9 is Current Rating
- Current Rating \neq *Last Rating*

Surface	
Surface SubType	Asphalt-Standard (Asphalt)
MIRE Surface Type	Bituminous
Current PASER Rating	9 - Excellent
RSL	11
Confidence	92
YLR	2019
PASER Rating/Treatment History	
Last Rating Add PASER Rating/Treatment...	
7/15/2019 (Crush, Reshape and Overlay)	
+ PASER Rating	10 - Excellent
6/20/2011	
+ PASER Rating	3 - Poor

Current Rating vs Last Rating

- Current Rating = Calculated Rating
- Last Rating = Last Entered Rating

Current Rating = Calculated

Curve Name: Asphalt Curve

Rating	Years
10	1
9	1
8	3
7	4
6	3
5	2
4	3
3	3
2	5
1	0

Deterioration Curves

Suggested Model: Logistic Growth Model Unforced through Zero

Chosen Model: Gompertz Growth Model Unforced through Zero

Current Rating = Calculated

Current Rating = Calculated

- Calculated based on deterioration curve (best fit)
- Pessimistic: $5.9999 = 5$

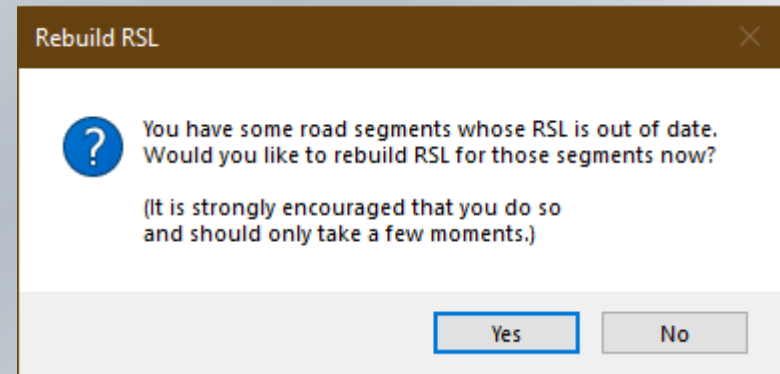

**Note: If Last Entered Rating Year = Current Year then
Current Rating = Last Entered Rating**

When is Current Rating Calculated?

- New or historical rating is entered
- New or historical treatment is entered
- New calendar year begins

Current Rating Calculation

- First login of new year

Current Rating Calculation

- Roads treated at end of year deteriorate a whole year

Surface	
Surface SubType	Asphalt-Standard (Asphalt)
MIRE Surface Type	Bituminous
Current PASER Rating	9 - Excellent
RSL	11
Confidence	92
YLR	2019
PASER Rating/Treatment History	
Add PASER Rating/Treatment...	
10/13/2019 (Reconstruction - 6" base, 3" top)	
+ PASER Rating	10 - Excellent

Current Rating Calculation

- One solution: Add another rating

Surface

Current Rating: Reports

Good/Fair/Poor Summary

Mileage Type: Lane miles
Road Class: Federal Aid Roads
Road Type: All Roads
Ownership: All Roads

Condition	Lane Miles	Percentage
Good (Rating 8+)	12.408	12.95%
Fair (Rating 5-7)	45.407	47.39%
Poor (Rating 1-4)	38.007	39.66%
Unrated	0.000	0.00%
Total Miles:	95.822	

Good (Rating 8+), 12.408 (12.9%)
Fair (Rating 5-7), 45.407 (47.4%)
Poor (Rating 1-4), 38.007 (39.7%)
Unrated, 0.000 (0.0%)

* New in
version 2020.1

Notes on Unpaved Roads

- PASER = **Pavement** Surface Evaluation and Rating
- Inventory Based Rating (IBR) system recommended for collection
- Good/Fair/Poor uses IBR for unpaved

Obstacles/Solutions

- Time
- Money
- Knowledge
- Inexact Tools

- Local Data Collection Funding
- Roadsoft Tools
- Training
