# Internship in Software Engineering

Software Engineering Intern

Software engineers are responsible for developing software, writing, and maintaining the code base, testing software, and continuous development.

Key responsibilities:
- Bug fixes
- Small feature implementations
- Upgrading existing features
- Upgrade legacy code patterns to current
- Test code changes
- Record tickets based on errors found in testing or observed in code

Additional responsibilities:
- Release testing
- Tech support

All positions are paid. Year-round positions open with a minimum of 10 hours/week during the academic year and up to 40 hours/week during the summer.

How Can You Help Us?

CTT interns assume active roles on a variety of projects for our local-agency, state, and federal clients. Working at the CTT can provide an outstanding opportunity for interns to gain "real world" experience.

Please email your resume and cover letter to sathorpe@mtu.edu.

About the CTT

The Center for Technology & Training (CTT) is a research center housed in the Department of Civil and Environmental Engineering at Michigan Technological University and located in Dillman Hall. We are funded through several different state and federal programs. We build, maintain, and manage a number of projects including Michigan's Local Technical Assistance Program, Roadsoft, the Michigan Engineers' Resource Library, the Bridge Load Rating Program, and the Great Lakes Environmental Infrastructure Center.
