New Project Planning & Selection Tool

Webinar December 14th 2017 – 9AM to 11AM ET

Get a first look at Roadsoft's new Project Planning & Selection Tool!

The Project Planning & Selection Tool is a new Roadsoft feature meant to aid agencies in pavement management planning by highlighting the individual road segments that are candidates for a selected treatment at a specified time.

As a general overview of the new Project Planning & Selection Tool, the webinar will include:

- Creating project planners from strategies and filters
- Navigating the project planner window
- Adding project plans to project planners
- Adding road segments to project plans
- Converting project plans into Roadsoft projects
- Running project planner reports
