2017 Construction Documentation for LPA Field Inspectors Webinar

Thursday, June 29, 2017
9:00 AM - 11:00 AM

Center for Technology & Training

Michigan's Local Technical Assistance Program

Local public agency (LPA) construction inspectors verify and document that projects are in substantial conformance with contract documents.

Learn why Federal-aid projects must follow Michigan Department of Transportation (MDOT) quality assurance and material documentation procedures. Gain insight and understanding as to what is required and what you can do as a construction inspector to reduce file documentation deficiencies and risks of Federal-aid withdrawal.

Anyone performing inspection duties for local agency Federal-aid projects should attend this webinar.

Registration

There is no cost to participate in this webinar. Register online.

Presenters

Kelly Crannell, PE, is the local agency construction engineer for MDOT. She provides general oversight of construction administration documentation processes for federal and local agency construction projects. Crannell strives to enrich local agencies with opportunities to learn how to preserve Federal aid, reduce project risks, and deliver successful transportation assets.

Channing Page performs field inspection duties in MDOT's University Region. He developed and instructst he MDOT Certified Office Technician course, teaching office technicians how to work with construction inspectors and contractors to gather required project documentation for Federal-aid projects. Page has been at MDOT for 28 years.

Jason Guikema is a local agency designated representative designee working at MDOT's Grand Rapids Transportation Service Center. Having over 19 years of construction inspection experience, Guikema is well versed in urban and rural project challenges. His extensive experience in Federal-aid oversight requirements makes him a valuable resource to local agencies.

Agenda

- Federal Aid Basics
- Role of the Construction Inspector
- Resource/Guidance Documents
- Non-Compliance Casualties
- Q&A

For fulfillment of continuing education requirements, participants must be registered. The Center for Technology & Training's continuing education policy is available **here.**
