Instructors

Byrel Mitchell is a software engineer at the Center for Technology & Training (CTT). He joined the CTT in 2015 and has been working on Roadsoft development. Byrel graduated from Trine University and has a Bachelor of Science Degree in Mechanical Engineering, Computer Engineering and Mathematics.

Nancy Moore is a senior software engineer with the CTT, which she joined in 2005. She has a Bachelor of Science in Computer Science from Michigan Technological University and over 25 years of software development experience. Her work has focused on adding to the Traffic Count, Sign, Guardrail, and Safety modules. Nancy has helped with testing of major releases, code rewrites, training, tech support, and sign migrations.
