2017 ASSET MANAGEMENT CONFERENCE

Dear Conference Guest,

“From Policy to Practice”

The TAMC Conference Committee put together a broad spectrum of topics and we are very excited for this year's event. You will hear presentations highlighting further efforts in asset management including the 21st Century Infrastructure Commission, National Center for Pavement Preservation and developing asset management plans. We hope the information shared today will be valuable to you in bringing all our asset management efforts from policy to practice.

We are thankful for the data that is collected annually on the conditions of our roads and bridges by our asset management partners at the Michigan Department of Transportation, cities, villages, county road agencies, Metropolitan Planning Organizations, and Regional Planning Organizations.

We look forward to your feedback from the conference to continually provide value in our efforts in asset management education.

Sincerely,

Joanna I. Johnson, Chair
Transportation Asset Management Council

michigan municipal league
