

MDOT Local Agency Program: Federal Aid 101 for Local Agency Construction Inspectors

WEBINAR: Thursday, March 7, 2019 — 2:00 - 3:30 PM

Photo: CTT Archive

Federal-aid documentation requirements for field inspectors!

Learn why local agency projects must follow Michigan Department of Transportation (MDOT) quality assurance and material documentation procedures in this webinar. The presenters will equip you with tools to improve your IDR documentation practices. Good IDR documentation supports material postings and payments, assists in maintaining program compliance, and eliminates end-of-project challenges associated with file deficiencies and potential loss of federal-aid funding.

Presenters

Kelly L. Crannell | Michael Stoltz | Nathan Takacs

No cost to attend. Register [online](http://ctt.nonprofitsoapbox.com/2019mdotlap-fedaid101ci) at <http://ctt.nonprofitsoapbox.com/2019mdotlap-fedaid101ci>. Questions? E-mail ctt@mtu.edu.

* Required for fulfillment of continuing education. The Center for Technology & Training's continuing education policy is available ctt.mtu.edu/ContinuingEducation. No shows or cancellations within three business days of the session will be charged the full registration fee. Substitutions will be accepted.

MDOT Local Agency Program: Federal Aid 101 for Local Agency Construction Inspectors

WEBINAR: Thursday, March 7, 2019 — 2:00 - 3:30 PM

Michigan's
Local Technical
Assistance Program

Presenters

Kelly L. Crannell, PE, is the local agency construction engineer for the Michigan Department of Transportation (MDOT). She provides general oversight of construction administration documentation processes for the federal-aid local agency construction projects. Prior to becoming a steward for the public and local agencies at MDOT, Crannell was co-owner/vice president of an engineering/architectural consulting firm; was elected to a four-year term on Zilwaukee's City Council, for which she also serves as Mayor Pro Tem; and has held various board positions in professional societies and organizations. Crannell has a Bachelor of Science in Civil Engineering from Michigan Technological University and a Master of Business Administration from Saginaw Valley State University; and, she maintains a professional engineering license in the State of Michigan.

Michael Stoltz is the local agency designated representative working at MDOT's Grand Rapids Transportation Service Center (TSC). With over 17 years of construction inspection and office technician experience, Stoltz is well versed in urban and rural project challenges. His extensive experience in federal-aid oversight requirements as the Grand Rapids TSC office technician makes him a valuable resource to local agencies.

Nathan Takacs is the local agency-designated representative at MDOT's Marshall TSC. Takacs' career at MDOT began with three co-op rotations followed by two years of full-time field experience performing local agency construction oversight and inspection for trunkline projects. Takacs is knowledgeable with federal-aid requirements and what it takes to prepare a solid IDR. Takacs is a graduate of University of Detroit Mercy's civil engineering program.
