

# Culvert Asset Management Training

Michigan's local road-owning agencies own hundreds of thousands of culverts. Management of these assets through inventory and condition evaluation will help agencies as they plan future projects. In August of 2020, AASHTO published the *Culvert & Storm Drain Inspection Guide* replacing the outdated FHWA *Culvert Inspection Manual* from 1986. This training will introduce attendees to the new Michigan TAMC 2021 *Michigan*

*Non-NBI Culvert Structure Inspection Guide* based on the new AASHTO documentation.

## Presenters

Chris Gibertson, PhD, PE Associate Director CTT, Research Engineer

Scott Bershing, Technical Specialist

## Non-NBI Culvert Data Collection and Condition Evaluation in Michigan

This webinar will introduce attendees to the 2021 TAMC inspection guide. The training will cover inventory collection along with the condition evaluation under the new Good/Fair/Poor/Severe rating structure. Examples will serve to illustrate how the guide is used for field evaluation.

The last portion of the training will include an overview of updates made to Roadsoft to meet the new collection and evaluation procedure.

## Registration\*

Fee: \$10
