Michigan Transportation Asset Management Council

Roadsoft®

Master the Roadsoft Data Collection Cycle for Planning Organizations – Webinar

June 21, 2017
8:00 AM to 10:00 AM

Instructors

Roger Belknap is the Michigan Department of Transportation's TAMC Cooridnator, serving in this role since January 2016. Before this, he worked with the City of Cedar Springs, the Village of Spring Lake, and the Kent County Road Commission.

Luke Peterson is a principal programmer for Roadsoft with over 19 years of software engineering experience, and has been with the Center for Technology & Training (CTT) since 1999. He is the lead developer for the Laptop Data Collector (LDC) software and for Roadsoft's Sign, Culvert, Guardrail, Driveway, and project modules.

Pete Torola, PE, is a research engineer who has been with the Center for Technology & Training (CTT) since 2014. Prior to joining the CTT team, he had over 13 years of experience working as a resident engineer on county highway construction projects. He is a licensed professional engineer in both Michigan and Illinois.

Potential Topics:

- Collection and submission deadlines
- Data collection and data sharing cycle:
  - Working with local agencies
  - Submitting planned collection network
  - Bringing collected data to Roadsoft
  - Submitting completed collection file
- Quality assurance and control methods
- Federal-aid vs. non-Federal-aid data collection
