Adhesive Anchor Installation Inspector
ACI Certification Program

The American Concrete Institute (ACI) is pleased to introduce a certification program specifically designed for the inspection of the installation of adhesive anchors. The program combines both classroom and hands-on training that concludes with a two part written exam. Part I is closed book and is based on the Adhesive Anchor Installer (AAI) certification utilizing the AAI technician workbook (CP-80). Part II is an open book exam based on inspection requirements from ACI 318, 355.4, 2015 IBC, ICC-ESR and other industry documents.

While the Inspector does not have to demonstrate the ability to install an anchor system, they are required to attend a practice/hands-on session to observe installers working with overhead installations, the piston plug and retaining cap sys-

> *"Going through this program was an eye opener. I had no idea of the specifics associated with the different products or the impact they could potentially have related to a quality installation"*

tems.

To become certified, you must pass both the Installation exam (Part I), the Inspection exam (Part II), and attend the practice/hands-on session. Your certification is valid for a period of 5 years.

The program is being offered by the Michigan Concrete Association (MCA) in conjunction with ACI. The details are as follows:

Date: Wednesday, May 9, 2018

Time: 8:00 a.m. – 5:00 p.m.

Location: American Concrete Institute

               38800 Country Club Drive, Farmington Hills

               248.848.3700

Cost: $525
