

Blue Tooth Ear Protection

Walter Jansen

Equipment and Facilities Superintendent
Allegan County Road Commission

Risks on the job won't go away - **be prepared**

INSURANCE AGAINST RISK ON THE JOB:

- ✓ **Real-time verbal communication** – immediate verbal warnings, directions, clarifications help avoid mistakes and hazards.
- ✓ **Situational awareness** – low visibility, high traffic, noisy equipment – we must be aware of what's around us at all times.
- ✓ **Hearing protection** – sudden extreme noise can cause disruption, distractions and can lead to hearing loss.
- ✓ **Eliminate mistakes** – error happens when communication breaks down.

Chip Seal Crews, Heavy Equipment Users, Tree work, Traffic Control / Flagging

Hear What's Important

When the headset is on, there's a **BIG DIFFERENCE.**

- No buttons to push.
- Eliminate hand signals.
- Conversational control.
- Stop carrying radios.
- Situational awareness with listen-through technology.

Changing the Game in Your Organization

Ability to Scale

- Train your workforce more quickly and efficiently.
- Promote natural collaboration that leads to quality improvement.
- Flexible configuration solutions that are easily adaptable.

Changing the Game for You

Hear and be Heard

- Hands-free wireless supports effortless three-way communication safety protocol.
- Clear voice quality of full duplex helps minimize misunderstandings.
- Greater confidence is achieved when working solo, out of sight, or with less experienced team members.
- Auto noise gate lessens frustration from background noise.

Why Customers Choose Sonetics

- **Efficiency** – getting more done in less time, and sometimes with fewer people, without having to stop what you're doing to communicate.
- **Safety** – hands-free + real-time communication + noise cancelling mic-gates can make all the difference for personnel safety in an emergency situation
- **Risk Mitigation** – communication can prevent costly damages
- **Quality** – being able to communicate early and often can enhance the overall quality and thoroughness of work being completed
- **Teaching** – training and coaching in real-time during the job rather than debriefing after
- **Team Work** – morale goes up and stress goes down when crews have constant communication

Making it Happen

- What happened on the demo
- Get you superiors on board before or after ?
